

Information

Name: Junxi Yan                      Birthday: 2005-02  
Gender: Male                      Phone: 15840140210  
Email: yjx2005@163.com                      Nationality: Han  
Native Place: Shandong                      Political: League Member

Education

Spt 2021 - Present                      University: Tsinghua University                      Computer and finance(Bachelor)  
I am a sophomore undergraduate student in the Computer Science and Finance dual degree program. The Program is a new degree program offered by Tsinghua University in 2020, aiming to cultivate combined talents in the fields of IT and finance.Its special model allows students to approach specific problems with a different perspective than those in the computer and finance fields.

Experience

Oct 2021 - Present                      Student Association for Science and Technology (THUSAST)                      officer  
Job Assisted the chair and the head of the events department in organizing nearly a dozen school-level science and innovation events in two years, including but not limited to the Tsinghua University Big Idea Challenge, Drone Competition, Challenge Cup, and a software design competition in cooperation with Shaoxing local government.  
Primarily responsible for assisting with planning and event organization.

Skills

**Language skills:** English level 4, simple English translation, fluent in spoken English, Mandarin: fluent  
**Office skills:** proficiency in WORD, PPT, excel and other office software, the ability to arrange and process documents and other practical skills  
**Professional ability:** slightly skilled in simple programming, able to use python, C++ and other programming languages for simple programming. Acquire simple knowledge of finance.

Self-evaluation

I have a warm and cheerful personality, can easily integrate into new social circles, good at dealing with social problems between people. When in a group, I have a strong sense of belonging to the team and willing to take the initiative to assume more team responsibilities. When faced with problems, you can handle them calmly and have a good sense of the big picture. In addition, I am younger than my classmates, which makes me more daring, creative and imaginative.

My overall GPA for the first three semesters was 3.72.
